

YOU CAN HELP SAVE THE SOLDIERS HOME

The Milwaukee Soldiers Home was built in 1867 as a place of healing for veterans returning from the Civil War. As one of his last acts before being assassinated, President Lincoln signed legislation to create a national system of homes for disabled veterans. Since then, thousands of Wisconsin veterans have called the Milwaukee Soldiers Home their safe haven.

We can honor these men and women and support those who have so nobly served our country by restoring these iconic buildings to relieve the plight of homeless veterans.

This nationally significant project was made possible by a group of women from Milwaukee who raised \$110,000, a staggering amount of money in the 1860s, to make this vision a reality.

It is now our turn to restore this historic campus to the purpose for which it was intended - the service of veterans - and we are in the home stretch.

With your help we'll be able to provide 101 supportive housing units to homeless and at-risk veterans and their families.
